1)The cost of attendance amounts shown here are "base" rates. Costs may vary according to enrollment status, living arrangements, academic programs, and tuition.

2) Room and board rates are based on a double room with a gold meal plan option. The actual rate will vary, depending on the room rate and meal plan that you choose.

3) The Transportation and Personal Expense averages are based on an annual survey conducted by the Washington Financial Aid Association (WFAA), and may not reflect actual cost of travel for international students.

4) International student insurance is mandatory per the Department of State and Affordable Care Act. Insurance is billed at a different rate each term, based on the number of days covered. International student insurance can be waived with proof of comparable coverage.
