Notice of Disciplinary History Verification

Be advised that the Office of Students Rights and Responsibilities (OSSR) reviews the disciplinary history of all students potentially participating in the Study Abroad program for violations of the Code of Student Conduct (this includes warnings, disciplinary probation, etc.). Initial notifications from OSSR to our office of previous violations will be limited to general disclosure that there is an incident on the student's record and then the student will be notified that they need to decide whether to give permission for OSSR to release more specific details. If a violation does exist then the Office of Global Initiatives will need additional information regarding the incident in order to determine whether the student is a candidate for the program.
